PRESS RELEASE – Kaymar 4x4 Accessories

Rear Bar LED Signal Light Upgrade Kit

LED lighting products are proving their worth in all manner of outdoor devices due to their low power requirements, brightness, ruggedness and long operational life.

Available right now for past models of Kaymar rear bars are kits to upgrade outdated festoon light fittings with the latest LED modules which include a combination of park light, brake light and turn indicator. (new model Kaymar bars are fitted with LED as standard)

With high vibration resistance and both weather and dust proofing these modules are perfect for use in products that are exposed to hostile environments.

The module kits are directly compatible with the cutouts and mounting arrangements of the festoon models and a straight forward DIY project taking just minutes to fit with minimum tools required.

Each kit includes a pair of LED modules, fitting brackets and screws sells for \$150.00 and is available from all Kaymar resellers. (Part #KAA002)
