

## TOYOTA PRADO 150 - MUDFLAP IDENTIFICATION

CUSTOMER NOTE ONLY FOR: TOYOTA PRADO 150 2009 - JUNE 2011

If purchasing a Kaymar Rear bar for Toyota Prado 150 between 2009 – 2011 June, please confirm which style mudflap your vehicle has.

Toyota issued a design update to increase the length and alter the shape of the mudflap after June 2011. Some vehicles prior to this date may have had the mudflaps updated through Toyota. These vehicles will suit our updated wing profile.

### SHORT MUDFLAP

This mudflap is identified by a very slim flat side profile and an 80mm lower length.

Compatibility:

Pick date range 2009 - June 2011

### LONG MUDFLAP

This mudflap is much more curved and shaped. It is most visibly longer with a 150mm lower length.

Compatibility:

Pick date range July 2011 - Oct 2017

Bar sensor types are the same from 2009 - Oct 2017.

Continue to select your correct trim level, wiring options etc based on your vehicle.
